Ezra Schwarz of [REDACTED]

I am submitting my representation to express my concerns regarding the Edgware Policy in the proposed main modifications to Barnet Local Plan

I recently became aware of this plan as I have never seen or received written communication from Barnet Council.

The volume and complexity of the local plan are overwhelming and I am concerned about the impact on us all residents.

I am surprised in particular that there is no adequate provision for a sheltered bus station, no parking facilities for commuters and shoppers,

High rise buildings are out of character for Edgware, furthermore there is no additional infrastructure for this monstrous project.

I express my support for any representations made by Save our Edgware and the Edgware Community Association as they reflect my own concerns.

Please consider this as part of the Equality Impact Assessment,

Yours sincerely

E Schwarz
